

HellermannTyton

Approved Cables for MegaBand Category 5e/GigaBand Category 6 System

August 2007

HellermannTyton offers a 25 year warranty on the system installation of recommended cable manufacturer's product and HellermannTyton CAT5e and CAT6 connectivity products. This assures installation dependability for maximum performance. The **Structured Cabling System Warranty** covers the entire system, including HellermannTyton connectivity products, and beyond, by completing the channel with the recommended CAT5e and CAT6 cable.

HellermannTyton recommends the use of the following manufacturer's cable to be used with HellermannTyton's line of Category 5e and Category 6 connectivity products. These cables have been tested with our connectivity hardware and exceed the latest requirements for CAT5e and CAT6 Link and Channel as specified in the TIA/EIA-568-B.1 and TIA/EIA-568-B.2-1 standards.
